International Journal of Wildland Fire

March 1, 2023

Dear Sir or Madam,

Please consider the attached submission for publication in *International Journal of Wildland Fire*. This work is a unique investigation of the pyric-herbivory/fire-grazing interaction in an invertebrate community, and as such is a novel contribution to the understanding of wildland fire interactions with biodiversity.

We look forward to working with the editors and reviewers of *International Journal of Wildland Fire* to ensure our manuscript meets the standards of the journal.

Sincerely,

Devan Allen McGranahan
Rangeland Research Ecologist
